

Chapter 16

Probes for Endocytosis, Receptors and Ion Channels

Section 16.1 — Probes for Following Receptor Binding, Endocytosis and Exocytosis	673
Ligands for Studying Receptor-Mediated Endocytosis	673
Fc OxyBURST Green Assay Reagent: Fluorogenic Immune Complex	673
OxyBURST Green H ₂ HFF BSA Reagent	674
Amine-Reactive OxyBURST Green Reagents	674
Fluorescent Low-Density Lipoprotein Complexes	674
Fluorescent Acetylated LDL Complexes	675
Fluorescent Conjugates of Lipopolysaccharides	676
Epidermal Growth Factor Derivatives	677
Transferrin Conjugates	678
Fluorescent Lactoferrin	679
Fluorescent Fibrinogen	679
Endostatin Protein	679
Fluorescent Gelatin and Type IV Collagen	679
DQ Ovalbumin: A Probe for Antigen Processing and Presentation	680
Fluorescent Casein	681
EnzChek Protease Assay Kits	681
Alexa Fluor 488 Histones	681
Probes for the Acrosome Reaction	681
BODIPY FL Hyaluronic Acid	681
Oregon Green 488 Mucin	681
Fluorescent Cholera Toxin Subunit B — Markers of Lipid Rafts	681
Fluorescent α -Crystallin	681
Fluorescent Chemotactic Peptide	682
Fluorescent Insulin	682
Fluorescein-Labeled α -MSH Analog	682
Fluorescent Dexamethasone Probe for Glucocorticoid Receptors	682
Methods for Detecting Internalized Fluorescent Ligands	682
Membrane Markers of Endocytosis and Exocytosis	683
FM 1-43	683
Analogues of FM 1-43	684
4-Di-1-ASP and 4-Di-2-ASP	684
TMA-DPH and TMAP-DPH	684
Anti-Synapsin I Antibody	685
High Molecular Weight Polar Markers	685
BioParticles Fluorescent Bacteria and Yeast	685
Vybrant Phagocytosis Assay Kit	686
Opsonizing Reagents and Nonfluorescent BioParticles	686
Fluorescent Polystyrene Microspheres	686
Fluorescent Microspheres Coated with Collagen	687
Fluorescent Dextrans	687
pH Indicator Dextrans	688
Vitamin-Conjugated Probes	688
Low Molecular Weight Polar Markers	688

Carbohydrates	688
Fluorescent Glucose Analogs	688
ManLev and ManLev Tetraacetate	688
Probes for Investigating Secretion and Degranulation	688
Data Table	691
Product List	692

Section 16.2 — Probes for Neurotransmitter Receptors 693

α -Bungarotoxin Probes for Nicotinic Acetylcholine Receptors	694
Fluorescent α -Bungarotoxins	694
Biotinylated α -Bungarotoxin	695
Unlabeled α -Bungarotoxin	695
Amplex Red Acetylcholine/Acetylcholinesterase Assay Kit	695
Pirenzepine Probes for Muscarinic Acetylcholine Receptors	695
Prazosin Probes for α_1 -Adrenergic Receptors	696
CGP 12177 Probe for β -Adrenergic Receptors	696
BODIPY FL Muscimol for the GABA _A Receptor	696
Neuropeptide Probes for the Neurokinin Receptors	696
Substance P Analogs	697
Fluorescent Neuromedin C Analogs	697
Fluorescent Angiotensin II Analogs	697
Naloxone and Naltrexone Probes for μ -Opioid Receptors	697
Probes for Amino Acid Neurotransmitter Receptors	697
Caged Amino Acid Neurotransmitters	697
Anti-NMDA Receptor Antibodies	698
Amplex Red Glutamic Acid/Glutamate Oxidase Assay Kit	698
Probes for Other Receptors	699
Data Table	700
Product List	700

Section 16.3 — Probes for Ion Channels and Carriers 701

Probes for Ca ²⁺ Channels and Carriers	701
Fluorescent Dihydropyridines for L-Type Ca ²⁺ Channels	701
BODIPY FL Verapamil	702
Ryanodine Probes for Intracellular Ca ²⁺ Channels	702
Eosin Derivatives: Inhibitors of the Calcium Pump	702
Probes for Na ⁺ Channels and Carriers	703
Amiloride Analogs: Probes for the Na ⁺ Channel and the Na ⁺ /H ⁺ Antiporter	703
Tetrodotoxin: Blocker of Voltage-Gated Na ⁺ Channels	703
Cardiac Glycosides, Including Ouabain Probes for Na ⁺ /K ⁺ -ATPase	703
Probes for K ⁺ Channels and Carriers	703
Glibenclamide Probes for the ATP-Dependent K ⁺ Channel	703
Apamin for Small-Conductance Ca ²⁺ -Activated K ⁺ Channels	704
Probes for Cl ⁻ Channels and Carriers	704
Ivermectin Probes for Glutamate-Gated Cl ⁻ Channels	704
Stilbene Disulfonates: Anion-Transport Inhibitors	704
Other Inhibitors for Anion Transporters	705
DiBAC ₄ (5)	705
Eosin Maleimide	705
Data Table	706
Product List	706
